Construction Management

As part of our Construction Development Services platform, our construction management team has over 50 years of diverse construction and retail real estate development, redevelopment and renovation experience. We assume an owner's mentality and take responsibility for the direction and implementation of the entire construction process.

We serve as the single point of contact for the owner, making sure the project is completed on time and within budget while minimizing risks. Our approach allows our clients to focus on their core business strategies and becomes the connection where retail and real estate come together.
